Authority to Designate University of California Home Loan Program Participation for University Employees with Non-Eligible Titles

University policy defines the eligible population for participation in the University of California Home Loan Program (Program) as full-time University Appointees who hold a title in at least one of the following categories (or who will be appointed to any of the eligible titles effective no more than 180 days after loan closing):

1. Academic Senate members.
2. Academic titles equivalent to Academic Senate titles as specified in Section 105.1 and 103.3 of the By-Laws and Standing Orders of The Regents of the University of California.
3. Acting Assistant Professors.
4. Senior Management Group members.

Upon the recommendation of a Chancellor or the Lawrence Berkeley National Laboratory (LBNL) Director, the University President has the authority to approve participation for individuals with titles that fall outside of programmatic policy (non-eligible titles).

I hereby re-delegate to you, in your official capacity, the authority to approve Program participation for specific non-eligible titles as detailed in the University of
California Mortgage Origination Program Manual and the University of California Supplemental Home Loan Program Manual.

- Each request for an additional approval must be processed for a named individual.
- Approval for Program participation must be fully executed and received by the Office of Loan Programs prior to the applicant beginning the loan application process.
- Any position that reports directly to the authorizing official, and any position not specifically designated in the delegation of authority, requires approval by the University President.

The authority delegated herein may not be redelegated.

Janet Napolitano
President
